

AcuPro

MARO Office Furniture

For 30 years, we have been making sure that office work is comfortable and ergonomic. Our furniture demonstrates our professionalism and love for what we do. We are passionate about creating exquisite and functional things and that translates into a quest for new solutions that turn concepts into products at a higher and higher level. Using innovative engineering solutions, we strive for ensuring that our products are top-notch. Our quality has been proved by ISO 9001 and Geprüfte Sicherheit certificates. This is possible thanks to our technology park, where world-class techniques come together under one roof. As a responsible producer, we wish to minimize our ecological footprint and expect the same from our suppliers.

Our Machinery Park guarantees top quality and precision. Thanks to the investments in new techniques and constant search for unconventional solutions, we thrive all the time. We are aware of how valuable the human factor is, therefore some elements of our furniture are hand-made. Gluing the carcasses of curved counters is a job where the human has an advantage over the machine. However, where surgical precision and repeatability in short time are necessary, we take advantage of the latest technique. Wood processing center drills, mills and processes the edges with utmost precision. The quality of our furniture is based on hundreds of trials and tests, thanks to which we are certain that we are second to none

AcuPro

TRANSPORT

- Product delivered in boxes
- Self-assembly

WARRANTY

- 5-year MARO warranty

SOUND ABSORPTION CLASS

- Class A.

AcuPro

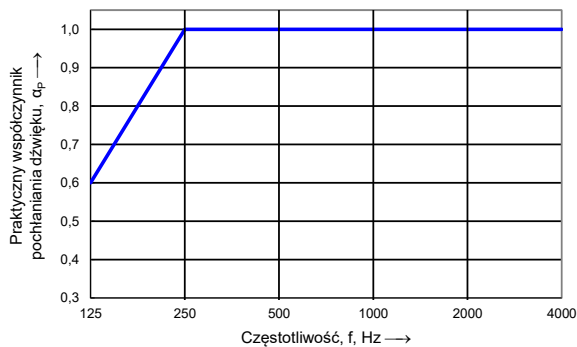

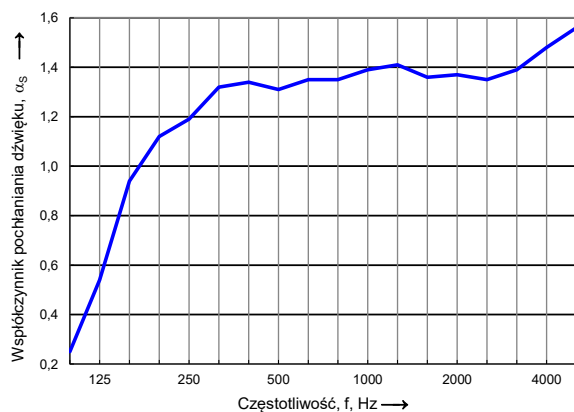

by Studio Rygalik

STRUCTURE

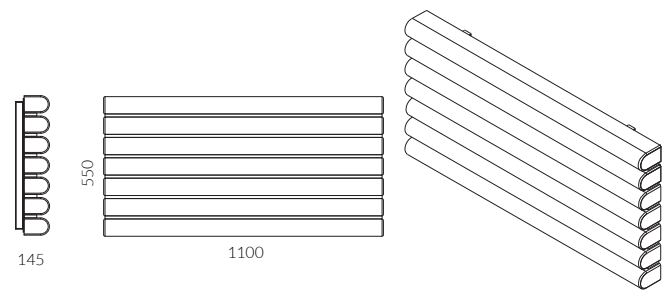

- Chipboard coated on both sides with melamine resin with increased durability - 1st class.
- Chipboard with reduced formaldehyde emission, E1 standard.
- Frame made of 30x30 mm powder-coated metal profiles.
- Upholstered elements made of recycled foam.

ACOUSTIC PROPERTIES

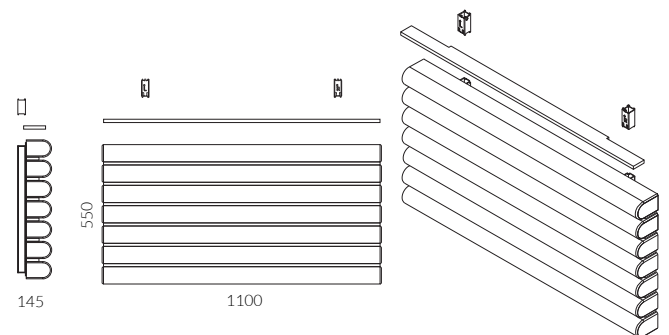

- Sound absorption class - **A** according **PN-EN ISO 354:2005**
- Sound absorption coefficient (α_w) - 1,00

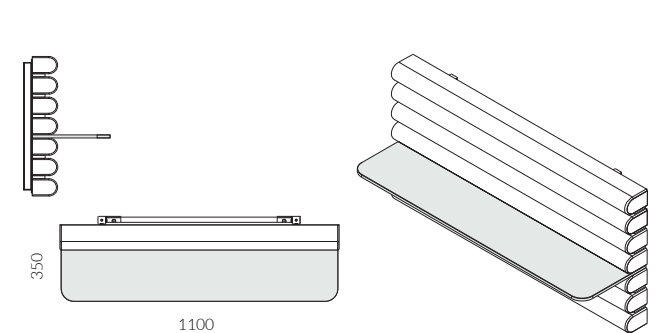

AcuPro wall absorber

AcuPro extension module

AcuPro shelf

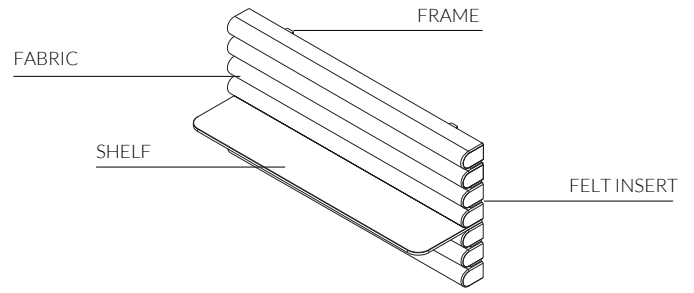

EQUIPMENT

- If a few absorbers are joined, an extra extension module needs to be ordered. It is delivered with metal, powder-coated elements that join the profiles of the absorbers and a felt insert that fills the gap between the upholstered elements.
- Shelf made of 12 mm thick melamine board as an option. Max. load: 5 Kg.

ADDITIONAL INFORMATION

- The right choice of mounting system for a given surface is up to the client.
- Colors according to MARO offer
